

City of Brodhead, Wisconsin
Brodhead Public Works/Forestry Committee Meeting
Minutes for December 3, 2019

Present: Rich Vogel, Barb Krattiger, Holly Everson, Mary Mason. Absent: Allen Bruce
Also, Present: Tim Stocks

Motion by Holly, second by Barb to approve November minutes. Motion passed

Public Appearances – None

Rich informed the Committee that he discussed the phosphorus project costs with Finance Committee and that after the general budget is passed Dan Nelson will start working on the utility budgets. Dan informed the committee that we can reimburse the Sewer utility for money spent on the projects.

Rich informed the Committee that the Phosphorus projects have not meet the required finish date due to weather conditions. The DNR has been notified. We are asking the DNR for credits from completed areas of the Searles Creek project. We need as many credits as possible to meet our phosphorus limit for November. If we do not meet the limit, the DNR could take some action such as a fine.

Leaf pick-up is getting closer to completion. Our goal is to finish by the end of next week at the latest.

Budget – Rich reported that at the end of November we have about \$55,000 plus \$50,000 that was earmarked for extra street maintenance left in the budget.

Committee comments/questions – Rich informed the Committee that new fiber optic is being installed around the committee and that some damage to a water service, fire hydrant and a sewer lateral has occurred. The company will be held responsible for all costs.

Next meeting set for January 7, 2020

Motion to Adjourn by Barb, second by Allen. Motion passed.
